

include/seqStack.hxx

```
graph TD; A[include/seqStack.hxx] --> B[Stack.h]; A --> C[climits];
```

The diagram illustrates a C++ header file's dependencies. A central box labeled 'include/seqStack.hxx' has two arrows pointing downwards to two separate boxes: 'Stack.h' on the left and 'climits' on the right. This indicates that 'seqStack.hxx' includes both 'Stack.h' and the standard C++ header 'climits'.

Stack.h
